

FurnitureLab™ Booths

All of our booths are made to order so you can get exactly what you want. The booths shown below represent four basic styles and they can be built in any configuration you need. Simply select a style from below and the type of back you would like from the next page. You can use any of our Vinyl Selections (p.57) and/or Fabric Selections (p.58-59) for the seat and back.

Half-Circle Booth

- **Top Size:** 30 x 42"
- Single Sided
- Built to any length, they seat four to six people with chairs.

Corner Booth

- **Top Size:** 42 x 42"
- Single Sided
- Built to seat about six people, with chairs.

Construction:

Frame: 1" solid wood frame with glued corner blocks and stapled reinforcements at all stress points.

Seats: Sinuous type nine-gauge springs on 3.5" centers secured with non-squeak "E" clips. Springs have two fiber coated wire stabilizer bars running the length of the seat. Fill consists of polyester fiber, foam, woven polypropylene and lantuck pads. Seats are removable.

Backs: Tuft-type double layer of foam over a solid wood frame with presswood backing. Eleven-gauge springs are used on 3.5" centers, secured with non-squeak "E" clips with a double layer of foam and woven polypropylene over springs.

Base: Made of 3/4" thick solid wood with support stringers and glued corner blocks. Base is covered with extra tough black vinyl.
