

NeoCast™ Urethane Edge Tops

These durable tops have a tough laminate surface with a resilient edge that is perfect for any high-traffic environment. Their bonded edge construction means there are no areas to collect food or bacteria. The bumper edge can take a beating and won't harm your chairs.

NeoCast™ Tops have a high-pressure laminate surface that is bonded to a 1-1/8" particleboard core with a backer sheet for stability. Their cast urethane edges can be produced in a variety of standard or custom colors (p.126). Choose from Wilsonart®, Formica®, Pionite®, Nevamar®, or Graphic Laminates.

These tops can be produced with Graphic Laminate made from customer or FurnitureLab™ supplied graphics or logos (p.78–104)

Urethane edges are made with 65% vegetable oil (a rapidly renewable resource), all Standard and Graphic Laminates are GreenGuard® certified, substrate made with 100% recycled wood fiber, FSC certified and formaldehyde-free substrate available

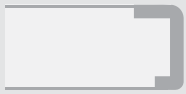

These tops can ship in less than 3 weeks
