

FurnitureLab™ Laminate Table Tops

Laminate Table Tops are great for any high-traffic food service environment. They can be produced using Standard or Graphic Laminate. Choose from the FurnitureLab™ Standard Laminate Selections (see p. 17-21) or any standard laminate from Wilsonart®, Formica®, Nevamar®, or Pionite®. Graphic Laminate can be used with any of our Standard Designs (see p. 24-49) or a Custom Design (see p. 50-53). Tops are available with an optional umbrella hole.

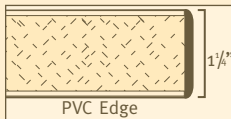

General Specifications: High-pressure laminate (0.045" thick) is mounted on a 1-1/8" particleboard core with a phenolic backer. Tops are made in various sizes and shapes and the appropriate edge is applied (see each section for details).

PVC Edge

PVC Edge Laminate Tops offer a tough laminate surface with a hard PVC edge. Their smooth edge provides a clean and contemporary look.

FurnitureLab™ Laminate Table Tops

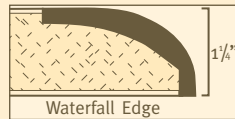

Urethane Edge

Urethane Edge Tops have a tough laminate surface with a resilient edge that is perfect for any high-traffic environment. Their bonded edge construction means there are no areas to collect food or bacteria. The bumper edge can take a beating and won't harm your chairs. A 3" radius is standard on all corners.

These tops can be produced in limited sizes and shapes. Please call for details.

EnduraCore™

Our EnduraCore™ Table Tops are made by fusing an image layer between a protective clear overlay, and a 3/4" thick solid core phenolic base, creating a seamless, durable table top for **interior and exterior** use. The edges are solid black all the way through.

The image layer can be any of our standard table top designs, a custom design, a wood grain pattern or a solid color. These tops can be produced in any size or shape.
