

# RightEdge™ PVC Edge Tops

RightEdge™ PVC Edge Laminate Tops offer a tough laminate surface with a hard PVC edge. The smooth edge provides a clean and contemporary look.

RightEdge™ Tops have a high-pressure laminate surface that is bonded to a 1-1/8" particleboard core with a backer sheet for stability and a glued 3mm PVC edge. Choose from Wilsonart®, Formica®, Pionite®, Nevamar®, or Graphic Laminates.

 These tops can be produced with Graphic Laminate made from customer or FurnitureLab™ supplied graphics or logos (p.78–104)

 All Standard and Graphic Laminates are GreenGuard® certified, substrate made with 100% recycled wood fiber, FSC certified and formaldehyde-free substrate available

 These tops can ship in less than 3 weeks

# TeeLine™ Vinyl T-Mold Edge Tops

TeeLine™ T-mold Edge Laminate Tops offer a durable laminate surface with a resilient vinyl edge. They're great in any foodservice environment.

TeeLine™ Tops have a high-pressure laminate surface that is bonded to a 1-1/8" particleboard core with a backer sheet for stability and are fitted with a vinyl T-mold edge. A 2" radius is standard on all corners. Choose from Wilsonart®, Formica®, Pionite®, Nevamar®, or Graphic Laminates.

 These tops can be produced with Graphic Laminate made from customer or FurnitureLab™ supplied graphics or logos (p.78–104)

 All Standard and Graphic Laminates are GreenGuard® certified, substrate made with 100% recycled wood fiber, FSC certified and formaldehyde-free substrate available

 These tops can ship in less than three weeks

# StreamLine™ Metal Edge Tops

The fluted aluminum edge of our StreamLine™ Tops evokes a mid-century, retro aesthetic. These tops deliver durability and style to any foodservice environment.

StreamLine™ Tops have a high-pressure laminate surface that is bonded to a 1-1/8" particleboard core with a backer sheet for stability and are fitted with an aluminum T-edge. A 2" radius is standard on all corners. Choose from Wilsonart®, Formica®, Pionite®, Nevamar®, or Graphic Laminates.

 These tops can be produced with Graphic Laminate made from customer or FurnitureLab™ supplied graphics or logos (p.78–104)

 Metal edge is made from a minimum 50% recycled content, all Standard and Graphic Laminates are GreenGuard® certified, substrate made with 100% recycled wood fiber, FSC certified and formaldehyde-free substrate available

 These tops can ship in less than three weeks

## NeoCast™ Urethane Edge Tops

These durable tops have a tough laminate surface with a resilient edge that is perfect for any high-traffic environment. Their bonded edge construction means there are no areas to collect food or bacteria. The bumper edge can take a beating and won't harm your chairs.

NeoCast™ Tops have a high-pressure laminate surface that is bonded to a 1-1/8" particleboard core with a backer sheet for stability. Their cast urethane edges can be produced in a variety of standard or custom colors (p.126). Choose from Wilsonart®, Formica®, Pionite®, Nevamar®, or Graphic Laminates.

These tops can be produced with Graphic Laminate made from customer or FurnitureLab™ supplied graphics or logos (p.78–104)

Urethane edges are made with 65% vegetable oil (a rapidly renewable resource), all Standard and Graphic Laminates are GreenGuard® certified, substrate made with 100% recycled wood fiber, FSC certified and formaldehyde-free substrate available

These tops can ship in less than 3 weeks

## EnduraCore™ Solid Phenolic Tops

Slim and sturdy, these tops are built to endure the test of time. What makes these tops unique is their solid black core and seamless construction. With no seams or applied edges to catch food or bacteria, they are ideal for healthcare environments.

EnduraCore™ Table Tops are made by fusing an image layer between a protective clear overlay and a 3/4" thick solid core phenolic base under heat and pressure. The image layer in the surface can be any standard Wilsonart® color or pattern or a customer or FurnitureLab™ supplied graphic. A 3/4" exterior grade plywood mounting plate is bonded underneath.

 These tops can be produced with Graphic Panels made from customer or FurnitureLab™ supplied graphics or logos (p.78–104)

 Nongraphic tops can be used outdoors

## ArborEdge™ Wood Edge Laminate Tops

ArborEdge™ Tops combine a durable laminate surface with a beautiful natural wood edge. They are perfect for high-traffic settings that call for the warmth of wood.

ArborEdge™ Tops have a high-pressure laminate surface that is bonded to a 1-1/8" particleboard core with a backer sheet for stability. Their 1 x 1-1/4" solid wood edges can be finished in a variety of standard or custom stains (p.126). Table edges are protected with 1 coat of catalyzed vinyl sealer and 2 coats of catalyzed conversion varnish, semi-gloss. Choose from Wilsonart®, Formica®, Pionite®, Nevamar®, or Graphic Laminates.

These tops can be produced with Graphic Laminate made from customer or FurnitureLab™ supplied graphics or logos (p.78-104)

All Standard and Graphic Laminates are GreenGuard® certified, substrate made with 100% recycled wood fiber, FSC certified substrate and wood available, formaldehyde-free substrate available

## Resilium™ Linoleum Tops

These warm and attractive table tops are incredibly resilient. Their linoleum surface has just the right amount of "give" and firmness that sets it apart from other types of tables. Linoleum is an excellent choice for sustainability, as it is made from linseed oil — a renewable natural resource. Choose from Marmoleum® or other name-brand linoleums.

Marmoleum® has naturally occurring antimicrobial properties that make it an ideal surface for dining tables in healthcare environments.

Resilium™ Tops have a linoleum surface that is bonded to a 1-1/8" particleboard core with a backer sheet for stability. Their 1 x 1-1/4" solid wood edges can be finished in a variety of standard or custom stains (p.126). Table edges are protected with 2 coats of catalyzed vinyl sealer and 4 coats of catalyzed conversion varnish, semi-gloss.

Substrate made with 100% recycled wood fiber, linoleum is made from linseed oil (a rapidly renewable resource), FSC certified and formaldehyde-free substrate available

# MultiPLY™ Plywood Edge Tops

MultiPLY™ Tops offer both a stylish look and high performance. Their exposed multi-layered plywood edge creates a strong visual appeal that can't be missed.

MultiPLY™ Tops have a high-pressure laminate that is bonded to a 1" thick Baltic Birch plywood core with a backer sheet for stability. MultiPLY™ edges can be finished in a variety of standard or custom stains (p.126) and shaped in a number of profiles. Table edges are protected with 1 coat of catalyzed vinyl sealer and 2 coats of catalyzed conversion varnish, semi-gloss. Choose from Wilsonart®, Formica®, Pionite®, Nevamar®, or Graphic Laminates.

 These tops can be produced with Graphic Laminate made from customer or FurnitureLab™ supplied graphics or logos (p.78–104)

 All Standard and Graphic Laminates are GreenGuard® certified, FSC certified and formaldehyde-free substrate available
